ACADEMICS

The primary goal of grading is to provide high quality feedback to parent/guardians and students; enabling them to clearly understand a student's progress, appropriately support the learning process and encourage student success.

Student's grades will demonstrate what a student knows, and performs within the current quarter. In order to earn credit student's must pass their class with a D- or higher.

Teachers will be given the flexibility to evaluate students with a grade that reflects their engagement, regular attendance, and grit. This includes students with IEPs and/or 504s, English Language Learners, and refugees.

School-Wide Writing Rubrics

Writing matters for success in school, the community, and workplace. The school-wide rubric provides explicit instruction that focuses on demonstrating how to communicate effectively with power and purpose.

The writing rubrics can be found on the HHS website under the parent/student resource tab.

HOW ARE GRADES WEIGHTED?

Grades will be weighted at a minimum:
80% formal assessments
20% daily instruction and practice work

Teachers will give a minimum of four formal assessments per quarter, three of which can be retaken following the teacher retake policy. (see test retake policy).

All students will receive equitable treatment.

TEST RETAKE & LATE WORK POLICY

Departments will be responsible to publish their own retake exam criteria. HHS minimum retake criteria includes no missing daily practice work, and first test must be taken.

Daily practice work will only be accepted when turned in during the current unit. Remember 80% of your grades are based on formal assessments. Turning daily practice work in late or incomplete will not produce effective grades. (refer to individual department disclosures for deadlines).

Students will receive direct instructions from teachers on appropriate technology use during class time.

Students will be allowed to ask questions and check their understanding of the classroom rules.
